

Nivi Pillai

CONSULTANT

Nivi is an analyst with Health Strategies & Solutions, Inc. She develops analyses and research for the firm's consulting engagements. She has particular experience with performance measurement and value analyses, including cost savings analyses, resource utilization analyses, opportunity measurement, and database design and management.

Nivi has contributed significantly to a number of HS&S projects including a strategic plan for the Department of Medicine at New England Baptist Hospital in Boston, a hospitalist program development plan for Potomac Hospital in Virginia, a strategic plan for the cardiovascular service line at St. Joseph Medical Center in Reading, and a detailed compensation and productivity analysis for Northwestern Memorial Physician Group in Chicago.

Prior to joining Health Strategies & Solutions, Nivi served as a management resident at Temple University Health System where she developed benchmarking reports, created project management databases, conducted workflow analyses for the pharmacy department, and completed comprehensive value analyses for the surgical and medical product portfolio. She was also as a graduate assistant for Temple University's International Programs.

Nivi earned dual master's degrees from Temple University's Fox School of Business and Management in health care management and management information systems. She also received a bachelor's degree in economics from the University of Mumbai in India. Nivi is a member of the American College of Healthcare Executives and the Health Leadership Network of Delaware Valley.
